## **DETAILED ACTION**

### ***Claim Rejections - 35 USC § 102***

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claims 1 and 5-7 are rejected under 35 U.S.C. 102(b) as being anticipated by US 5,498,507.

The reference discloses a optical recording medium formed of a phase change material having a dielectric layer thereon which prevents overwrite. See Sample 2-1.

Claims 1-3 and 5-7 are rejected under 35 U.S.C. 102(b) as being anticipated by US 5,818,808.

The reference discloses an optical recording medium comprising a phase change recording layer having a TiO<sub>2</sub> dielectric layer thereon which decomposes at a temperature over 600C and releases oxygen which prevents overwrite. See Comp. Example 5.

### ***Allowable Subject Matter***

Claims 8-17 are allowed.

Claim 4 is objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.
